Objective

Seeking an AI/ML or Software Engineering Internship to apply a strong academic foundation in Machine Learning and Edge AI to real-world business challenges. Dedicated to delivering optimized code and practical AI models, while continuously expanding technical skills and growing within a fast-paced technology environment.

Education

Ho Chi Minh City University of Technology (HCMUT – VNUHCM) Ho Chi Minh City, Vietnam
B.Sc. in Computer Science – Japan-Oriented Program Sep 2023 – Present

- Relevant Coursework: Machine Learning, Data Structures and Algorithms, Operating Systems, Database Systems, Software Engineering

Projects

AI Pulmonary Diagnostic Suite Jan 2026 - Present

Tech: Python, TensorFlow/Keras, DenseNet121, TFLite, Streamlit, Grad-CAM, Pandas

- **Architected a dual-engine AI web app** using TFLite for low-latency batch processing (up to 10 scans) and a full Keras engine for Grad-CAM explainability, building clinical trust.
- **Trained and fine-tuned DenseNet121 on 5,800+ X-ray images**, achieving a 92% Recall rate strategically optimized to minimize false negatives in critical cases.
- **Designed a Human-in-the-loop (HITL) clinical workspace** featuring automated risk categorization (Critical/Review/Cleared), in-browser radiograph illumination controls, and physician override capabilities.
- **Engineered an automated reporting module** that exports batch diagnostic analytics into standard Excel (.xlsx) and formatted text records for seamless hospital workflow integration.
- **Live Demo:** Web Interface Access

Technical Skills

- **Programming Languages:** Python, C++, Java, JavaScript, Dart.
- **Machine Learning & Deep Learning:** TensorFlow, Keras, TensorFlow Lite, Transfer Learning, Explainable AI (XAI / Grad-CAM).
- **Computer Vision & Data Processing:** CNN architectures (DenseNet, ResNet, MobileNet), Data Augmentation, NumPy, Pandas, Pillow (PIL), Matplotlib.
- **Software Engineering & Frameworks:** Streamlit, FastAPI, Flask, Flutter, RESTful APIs.
- **Tools & Database:** Git, Docker, MySQL, SQL.
